ELEMENTS COLLECTION

The ELEMENTS COLLECTION offers beautiful pieces that combine 3 main elements: wood, concrete, and metal. A stout powder-coated metal frame is the foundation for all of the collection's fire features. Sturdy glass fiber reinforced concrete makes for a durable yet smooth-looking top centerpiece, while South American hardwood adds a decorative and refined appearance.

The contrasting organic and industrial elements combine to create a look that is both intriguing and timeless.

COLOR OPTIONS

Most fire features are available to be ordered in one of six vibrant color options. Pewter is the most popular choice and PRISM HARDSCAPES introduced a NEW color called “Coastal” that is reminiscent of a quiet, serene, relaxing beachside resort.

FIRE MEDIA

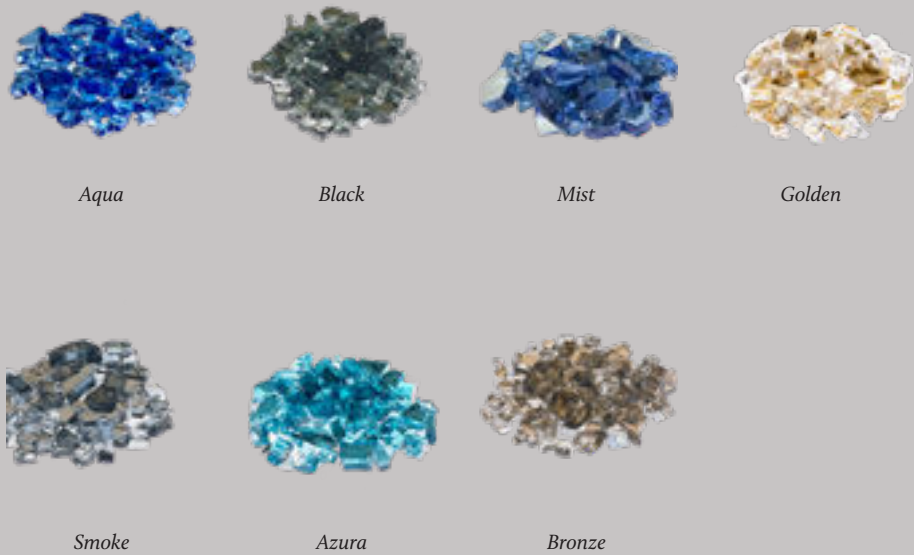

PRISM HARDSCAPES offers several different fire media options to allow anyone to customize their fire feature to their tastes. Beautiful ¾” Lava Rock is included with nearly all models, and offers a stark contrast with any of the fire feature color options.

Tumbled Lava Rock is included with Fuego Series fire features and is an upgrade available for all other models. Many people enjoy the smooth, clean look of the tumbled lava rock and it is a popular choice.

FIRE GLASS

PRISM HARDSCAPES offers Fire Glass as another upgrade option for most fire features. Its colorful dazzling, modern look is offered in 7 different colors.

From concept to finished product, outstanding craftsmanship is present in every aspect of our process. Each of our products has been hand-crafted using our own patina finishing process guaranteeing a one-of-a-kind subtle variation and creation
